## LITTLE THEATER NOTES

Correction please! Plans have been changed, and the play "Enter Madame," which was to have been presented in October by the Little Theater, will not be given at that time. Instead, a "Little Theater Extra" will be given, and this time for the general public. The dates will be three nights about the middle of October. Exact details will be announced in next weeks paper.

As for the play itself, we venture to prophesy that it will be one of the most enjoyable Bay St. Louis has ever seen. It's Noel Coward's hilarious three-act comedy "Hay Fever" with a long successful laugh-history on Broadway and in Little Theaters all over America. The cast will include Bea Smith, Alvin Weinmiller, Carl Smith, Ann Weston, David and Lucile McDonald, Jason Floyd, Ruth Ferrell, and Adelaide Knoblock. As further assurance of a top-notch performance, "Hay Fever" is to be directed by Mrs. Frank Dodge, who directed "Sun Up" in June and who has for many years been professionally engaged in theater work. The play is already in rehearsal. Watch for further details next week.

## Library Moving to New Quarters

The Bay St. Louis-Hancock County Library is moving to the Knights of Columbus Hall where they will be located for the present. The library hopes to be ready for the circulation of books by October 1.

Space on the ground floor of the hall has been given the library by the Board of Supervisors and Mr. Favre rent free and the city trucks have given free service for the transporting of books and cases through the courtesies of the city municipal board. This is greatly appreciated by the library board and the librarians.

It is the dream of the library that in the not too far distant future, a library building will be built in Bay St. Louis doing credit to the city and county and standing as a recognition of the needs of the children of the community.

The present library grew from nothing through the efforts of Miss Crawford and a loyal, conscientious, interested Library board and a new library building should be their reward. One rightminded citizen has already made a voluntary contribution of \$100 as a nucleus for a building fund. Why could not more of this type of citizens take their cue from this and come forward with like contributions and let a library would be born.

Miss Crawford and Miss Edwards ask that their friends remember them even though the library is a bit removed from the center of town. They want the children to know that they are still welcome and that every effort will be made to give them the same courtesy now as in the past. The library could not operate as efficiently without the children.

As the public begins to be Christmas minded let them remember that the library takes orders for books so please bring your orders in early and thus insure prompt delivery.

## WHAT DOES SCHOOL OFFER?

AS the schools of Hancock County open and thousands of pupils resume their studies, it might not be amiss to offer words of advice and encouragement to the young students.

We do not presume that anything can persuade many of the pupils to believe that they enjoy a rare privilege and great opportunity in connection with the resumption of their studies. It is too much to expect young boys and girls to appreciate the blessing that comes to them through the maintenance of our schools or to have any idea of conditions that exist in other countries where free education is practically unknown.

We would suggest to boys and girls who are now in school that they seek to develop themselves. If every pupil could only realize the value of the training that they can get, if they will from the year's course of study, we are sure that the teachers would be surprised at the high marks they would make. Nevertheless high marks are not necessarily the objective and it is often true that pupils making comparatively low marks manage to get the most out of their studies.

In most of the modern schools, the average pupil receives training that is not to be found in the books they study. There are many extra-curricular activities that engage the attention of boys and girls alike and there is a great opportunity to mingle freely with other young people and to learn the art of getting along with people. This will be a valuable asset throughout life and will continue to help the individual after all the facts and figures of his study course have been forgotten.

We hope the pupils of Hancock County will understand that education is not the possession of information but rather the ability to understand. This necessarily requires that the individual seek after the facts, think out their bearing upon everyday life and to orient self to a tremendous world and a much larger universe. It also encompasses the establishment of a personal relationship with the infinite goodness that manifests itself in so many ways to men and women everywhere.

## TO AVOID SUDDEN DEATH

THE king of amateur sports is arriving all over the country today. Football—the big college sport in this country—begins in earnest this week and next in every State in the Union. With it comes cooler weather and the football trips nearly every business man plans.

Every year there are many unnecessary deaths resulting from too much exuberance on the part of some fans. The long drive home sometimes is dangerous because of bad weather hazards and crowded highways and reckless, rushing drivers. The most fatalities occur after the game, not before.

Probably the best way to prevent accidents and costly wrecks on week-ends to come, is a program of constant warning and appeal to motorists before the season gets underway. This appeal is being made to you in the hope that it may save your life, your car or some other person's life some cold, icy Saturday afternoon this fall.

## "JANIE GETS MARRIED" AT A. & G. THEATER SUNDAY - MONDAY

Of the many problems which arise to confound the returned servicemen, some of the more humorous ones are lovingly brought to light in Warner Bros.' entertaining new comedy, "Janie Gets Married," which opens on Sunday and Monday at the A. & G. Theater. Starring Joan Leslie in the title role and Robert Hutton as the recently discharged GI who becomes a bewildered bridegroom just twenty-nine days after his return, the film is concerned with the further activities of that highly refreshing Conway family originally introduced to filmgoers last season in Warner's "Janie."

Spouting gracefully from adolescence into young womanhood, the unpredictable Janie makes marital history, in her newest screen excursion. Janie inconspicuously proceeds to bankrupt the new partnership by an astounding combination of personally inspired troubles, not the least among them being a misspent jealousy over an attractive WAC sergeant, Spud Leighton (played by Dorothy Malone).

Featured in the same roles they created in the original "Janie" picture are Edward Arnold and Ann Harding as Janie's father and mother; Barbara Brown and Robert Benchley as Hutton's mother and step-father, respectively; Dick Erdman as "Scoper" Nolan; Hattie McDaniel as April, staunch family realainer; and little Clare Foley as Elsiebeth Conway, Janie's excessively resourceful kid sister. New characters in the Conway saga are portrayed by Donald Meek as Harley P. Stowers, publisher and man of affairs; and Margaret Hamilton as Mrs. Angles, incompetent and irascible housekeeper.

Directed by Vincent Sherman, "Janie Gets Married" was produced by Alex Gottlieb from an original screenplay by Agnes Christine Johnson. The entire production was based on characters created by Josephine Benham and Herschel V. Williams, Jr., in their stage play, "Janie," as produced by Brock Pemberton. Frederick Hollander wrote the film's musical score.

## ORTTE THEATER SUNDAY - MONDAY "EASY TO WED" IN TECHNICOLOR

Van Johnson, Esther Williams with Lucille Ball and Keenan Wynn

Star-filled, song-filled, dance-filled and unraveling one of the most amusing yarns of marital crosses and double-crosses to have reached the screen in years, M-G-M's new Technicolor musical "Easy to Wed," opens Sunday and Monday at the Ortte Theatre as an outstanding entertainment smash.

Van Johnson, Esther Williams, Lucille Ball and Keenan Wynn are the stellar quartet around whom have been evolved an uproarious tangle of wedded errors, with each of the principals forced to marry the wrong party in order to eventually capture the right one.

It all starts when Miss Williams as Connie, lovely daughter of a millionaire, finds herself libeled in a news story by reporter Warren Haggerty (Wynn) in which he has called her a "husband stealer." When Connie's father promptly sues for two million dollars, Haggerty hires ladies-jean Bill Chandler (Van

Johnson) to enter in what is to be a purely temporary marriage with his own fiancée, dancer Gladys Benton (Miss Ball). The idea is that Chandler will now get the glamorous Connie to fall for him, whereupon she can be truly accused of being a husband-stealer and will have to drop her libel suit.

As events turn out, Connie falls for Chandler all right, but unfortunately, he also falls for her and, believing a previous divorce of Gladys to have been illegal, he marries her. When Gladys comes through with the documents of a legal divorce from her first husband, Chandler finds himself with two wives on his hands. The mud-die is finally dissolved with the couples reunited but not without a continuous round of uproar and hilarity.

The debonair Van Johnson has a made-to-order role as the double-time suitor who finds himself up to the neck in quicksands of love, and Miss Williams is a perfect foil as the at first cold but increasingly warmer heiress. The roles also offer the attractive couple their first opportunity to sing and dance on the screen, an opportunity they make the most of in several scintillating musical sequences.

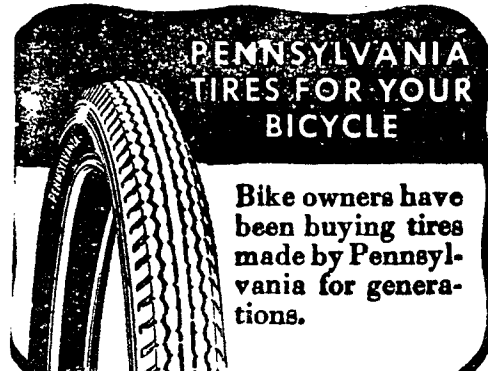

Miss Ball, who also has a song and dance number, is exactly right as the hardboiled but frustrated Gladys who feels she is being used, and her temperamental scenes with Wynn are among the picture's laugh highlights. The cast is completed by J. B. Allenbury (Cecil Kellaway) as Connie's irate father, Carlos Ramirez who sings several of the lilted Latin ballads.

THE PAY OUT IS INCREASING  
FASTER THAN THE TAKE IN

Your Telephone Company is doing the largest volume of business in its history, yet telephone earnings are still declining rapidly.

The reason is perfectly clear. Your telephone rate has remained the same for many years while the costs of furnishing you telephone service have increased. Wages, telephone materials, building costs, services, all have been going up so fast that—

the amount of money Paid Out to provide service is increasing faster than the amount Taken In. Actually telephone earnings today are the lowest in our history!

As every business man knows, good service depends on reasonable earnings. That is basic. To render good telephone service and to continually improve and expand it, reasonable telephone earnings are essential.

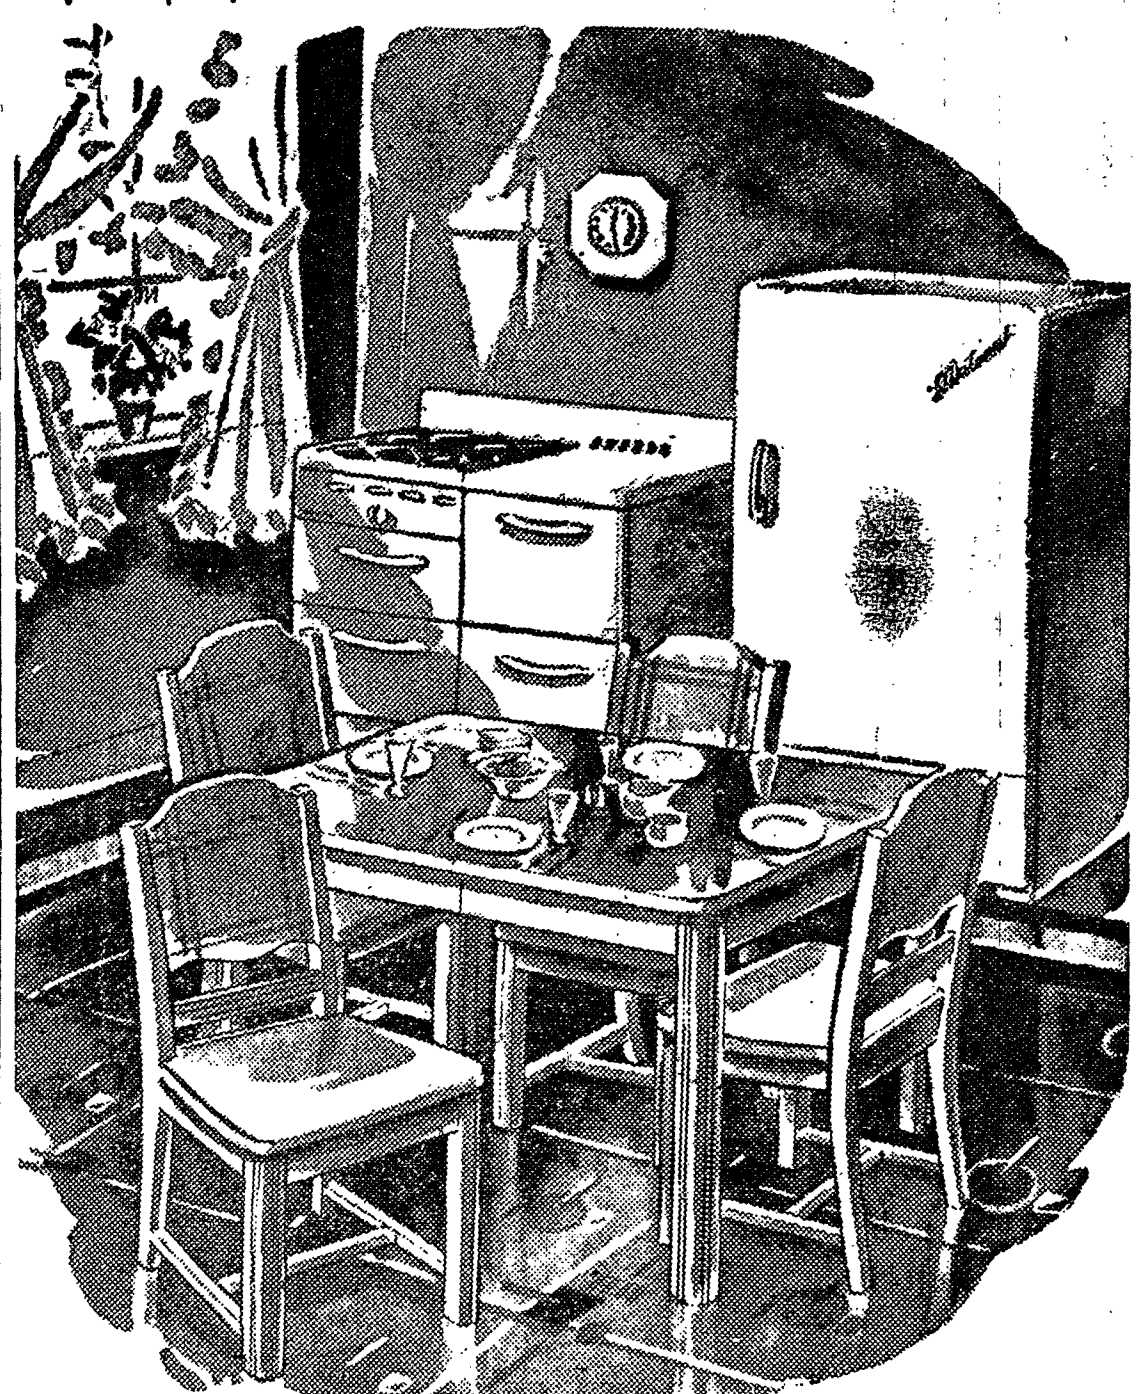

Our public duty demands that we report these facts to you.

## CONCRETE ROADS

Serve for many years  
AT LOW ANNUAL COST

Concrete pavements generally carry the heaviest traffic. Yet their annual maintenance cost is far lower than any other pavement intended for similar service. And the rugged strength and stamina of concrete assure long life—many years of all-weather service without interruptions for frequent repairs or rebuilding.

You'll find that concrete pavement usually costs less to build than any other pavement of equal load-carrying capacity. So with long life, low maintenance expense and economical first cost, concrete is easily the best investment for motorists' gasoline tax money, assuring it does low annual cost—the true measure of pavement economy.

jobs need to know their social security number which was given them before the war. Some have them but a large number of cards have been lost. Any veteran who has lost his card and is returning to his old job or is entering on a new job, should apply to the nearest social security field office for a duplicate. Many veterans are now entering employment for the first time. A social security account number card is required for any job in business, commerce, and industry.

Social security account numbers, both original and duplicate, can be obtained by mail, but it is preferable for the veteran to call in person at a field office and have the benefit of a personal interview on the need and importance of the number in the social security program. Virgil Gill, Pasacagoula High School principal was elected the re-

gion's representative on the State legislative committee to succeed Dan Keel of Long Beach, whose term expires next month.

The school officials were advised that the debate subject for this year will be "Resolved That the federal government should provide a system of complete medical care available to all citizens at public expense." The debates will be held early in 1947.

Prior to the business session held in the school library, the members were guests at a dinner served in the Junior High cafeteria.

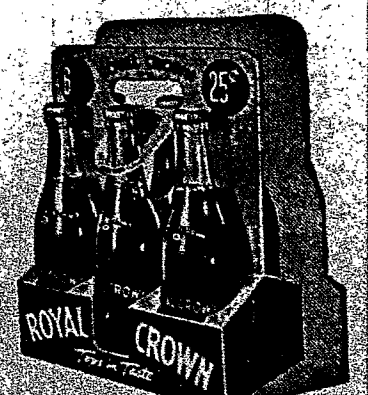

Following the meeting, representatives of schools having football teams held a conference with Edward Khayat of Moss Point president of the Mississippi Coast Officials' Association, and approved the officiating body again this season.

## Here Is the Latest News about Chevrolet Deliveries

Everybody from factory to dealer is doing everything  
that can be done to speed deliveries to you

We have been informed by the Chevrolet Motor Division that the past month has witnessed only a slight improvement in the rate of production of new Chevrolet passenger cars. As a result, shipments of new cars to dealers for delivery are still far below the level we and the factory had hoped to attain by this time. In fact, through August, Chevrolet's output of cars in 1946 was only 22.6% of the number turned out during the corresponding period of 1941.

We know that Chevrolet is doing everything possible to step up its production totals—to ship more and more cars to us and to its thousands of other dealers throughout America; and we know, too, that we are assured of getting our full proportionate share of the current output and of future production gains.

Disappointing as the total figures have been—and despite the fact that Chevrolet was out of production entirely during the first three months of the year—it is nevertheless true that Chevrolet led all other manufacturers in production of passenger cars during June 1946, and has continued to maintain its lead in total production from that day to this.

We shall continue to make deliveries of new Chevrolets to our customers just as fast as we receive them; we regret delays as deeply as you do; we thank you for your friendly patience and understanding; and we promise you a new high motoring experience when you take delivery of your new Chevrolet, giving BIG-CAR QUALITY AT LOWEST COST!

### Keep Your Present Car Alive

Meanwhile, may we suggest that you safeguard your transportation by bringing your car to us for service now and at regular intervals. Let us help you to keep it in good running condition—to maintain its performance, appearance and resale value—until the day when your new Chevrolet comes along.

## SET YOUR SIGHTS

It takes  
planning  
to achieve  
a goal

Some young men know what they want and plan for it. Others are still looking for their niche. The new Regular Army can help both.

Perhaps you want to go to college but can't afford it. If you enlist in the Army, you'll get your chance. Honorably discharged after a three-year enlistment, you are eligible for 48 months of education at any college, trade, or business school for which you can qualify. The Government will pay your tuition, laboratory fees, etc., up to \$500 per ordinary school year, plus \$65 a month living allowance—\$90 a month if you have dependents.

If you haven't found your spot, an Army enlistment offers you training in any of 200 trades and skills. You leave the service eligible for further training at the best civilian schools.

You can assure yourself of the benefits of the GI Bill of Rights if you enter the Army on or before October 5, 1946. See your nearest Army Recruiting Station for details.

### HIGHLIGHTS OF REGULAR ARMY ENLISTMENT

1. Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men now in the Army with 6 or more months of service.)
2. Enlistment age from 18 to 34 years inclusive (17 with parents' consent) except for men now in Army, who may reenlist at any age, and former service men depending on length of service.
3. A reenlistment bonus of \$50 for each year of active service since such bonus was last paid, or since last entry into service, provided reenlistment is within 3 months after last honorable discharge.
4. A furlough for men who reenlist within 20 days. Full details of other furlough privileges can be obtained from Recruiting Officers.
5. Mustering-out pay (based upon length of service) to all men who are discharged to enlist or reenlist.
6. Option to retire at half pay for the rest of your life after 20 years' service—increasing to three-quarters pay after 30 years' service. All previous active federal military service counts toward retirement.
7. Choice of branch of service and overseas theater (of those still open) on 3-year enlistments.
